

		Wednesday	Thursday	Friday	
		25. July	26. July	27. July	
9:00 - 10:00	9:00 - 9:15		Prof. Wilfried Schwab (Technische Universität München, Freising, Germany) <i>Structural analysis of a strawberry enone oxidoreductase involved in the formation of a key aroma compound</i>	Dr. Stefan Knauer (Universität Bayreuth, Germany) <i>Protein Refolding Controls Gene Expression</i>	
	9:15 - 9:30				
	9:30 - 9:45				
10:00 - 11:00	9:45 - 10:00		Prof. Fátima Ferreira (Universität Salzburg, Austria) <i>Structural features of proteins and allergenicity</i>	Dr. Laurent Lariviere (Gene Center Munich, München, Germany) <i>Structural and functional studies of the Mediator complex, a general transcription coactivator</i>	
	10:00 - 10:15				
	10:15 - 10:30		Christian Seutter von Loetzen (Universität Bayreuth, Germany) <i>Solution Structure of the Major Strawberry Allergen Fra a 1</i>	COFFEE BREAK	
	10:30 - 10:45				
10:45 - 11:00					
11:00 - 12:00	11:00 - 11:15		COFFEE BREAK	Prof. Markus Wahl (Freie Universität Berlin, Germany) <i>Structure and regulation of the spliceosomal RNP remodeling enzyme Br2</i>	
	11:15 - 11:30				
	11:30 - 11:45				
	11:45 - 12:00				
12:00 - 13:00	12:00 - 12:15		Prof. Dieter Willbold (Forschungszentrum Jülich, Germany) <i>Aβ oligomer targeted therapy and diagnosis of Alzheimer's disease</i>	Dr. Björn Burmann (Universität Basel, Switzerland) <i>The "fluid globule" state of outer membrane proteins bound to the chaperone Skp</i>	
	12:15 - 12:30				
	12:30 - 12:45				
	12:45 - 13:00				
13:00 - 14:00	12:45 - 13:00		Prof. Raphael Stoll (Ruhr-Universität Bochum, Germany) <i>Molecular recognition of DNA by medically-relevant zinc finger proteins and organoidium bis-intercalators</i>	CLOSING Dr. Maximilian Hartl	
	13:00 - 13:15	OPENING Dr. Olivia Hartl-Spiegelhauer			
	13:15 - 13:30	Prof. Teresa Carlomagno (EMBL, Heidelberg, Germany) <i>Protein recognition and functional mechanisms of non-coding RNAs</i>			
	13:30 - 13:45				
13:45 - 14:00					
14:00 - 15:00	14:00 - 14:15	PD. Dr. Stephan Schwarzinger (Universität Bayreuth, Germany) <i>Honey Analysis by NMR</i>	Johanna Drögemüller (Universität Bayreuth, Germany) <i>Autoinhibition of the Transcription Factor NusG</i>	Prof. Max Gottesman (Columbia University, New York City, USA) <i>Coupling transcription and translation through NusG</i>	
	14:15 - 14:30				
	14:30 - 14:45				
	14:45 - 15:00				
15:00 - 16:00	14:45 - 15:00	Mikolaj Felix (Universität Bayreuth, Germany) <i>QM and QM/MM modeling of the mechanism of a glyco-radical enzyme B12-independent glycerol dehydratase</i>	Prof. Max Gottesman (Columbia University, New York City, USA) <i>Coupling transcription and translation through NusG</i>	Prof. Max Gottesman (Columbia University, New York City, USA) <i>Coupling transcription and translation through NusG</i>	
	15:00 - 15:15				MEETING "FORSCHERGRUPPE"
	15:15 - 15:30				
	15:30 - 15:45				
15:45 - 16:00	COFFEE BREAK	COFFEE BREAK			
16:00 - 17:00	16:00 - 16:15	Berit Leo (Universität Bayreuth, Germany) <i>Important Structural Features of the Prototype Foamy Virus RNase H Domain in Substrate Binding</i>	Dr. Finn Werner (University College London, UK) <i>Archaeology of RNA polymerase – a conserved transcription factor swapping mechanism</i>	Dr. Stefan Knauer (Universität Bayreuth, Germany) <i>Protein Refolding Controls Gene Expression</i>	
	16:15 - 16:30				
	16:30 - 16:45				
	16:45 - 17:00				
17:00 - 18:00	16:45 - 17:00	Prof. Axel Rethwilm (Julius-Maximilians-Universität Würzburg, Germany) <i>Molecular Biology of Foamy Viruses: A Group of Extremely Successful Retroviruses</i>	Prof. Irina Artsimovitch (The Ohio State University, Columbus, USA) <i>RNA polymerase control through the secondary channel</i>	Dr. Stefan Knauer (Universität Bayreuth, Germany) <i>Protein Refolding Controls Gene Expression</i>	
	17:00 - 17:15				
	17:15 - 17:30				
	17:30 - 17:45				
18:00 - 20:00	17:45 - 18:00				
	18:00 - 20:00	DINNER	DINNER		
	20:00	POSTER SESSION	POSTER SESSION
